

# Inclusion & Exclusion

## Understand

Since the founding of the United States, not everyone has been treated equally. Rights described in the Declaration of Independence were not extended to everyone.

## Discuss

People discussed inclusion & exclusion during the American Revolution just like we do today. What can we learn from the past to prevent exclusion from happening today and in the future?

## Remember

Not everyone experienced the same American Revolution. Think about a big event in your life that you shared with friends and family. Did everyone have the same experience and memories of it?

## Ask

How would you describe inclusion and exclusion?  
When do you feel included or excluded?
